APU CLOUD INNOVATION HACKATHON

SPACEFINDER

Campus room booking for student groups

Women in STEM

PROBLEM STATEMENT

01

Finding a room

Students need to find a room that fits their group’s meeting time.

02

Checking for classes

A room can look empty before a scheduled class starts.

03

Checking reservations

A group needs to know if another student has already booked the slot.

SOLUTION OVERVIEW

One place to find and reserve a room

Choose a date and time, see which rooms are free, and reserve one for your group.

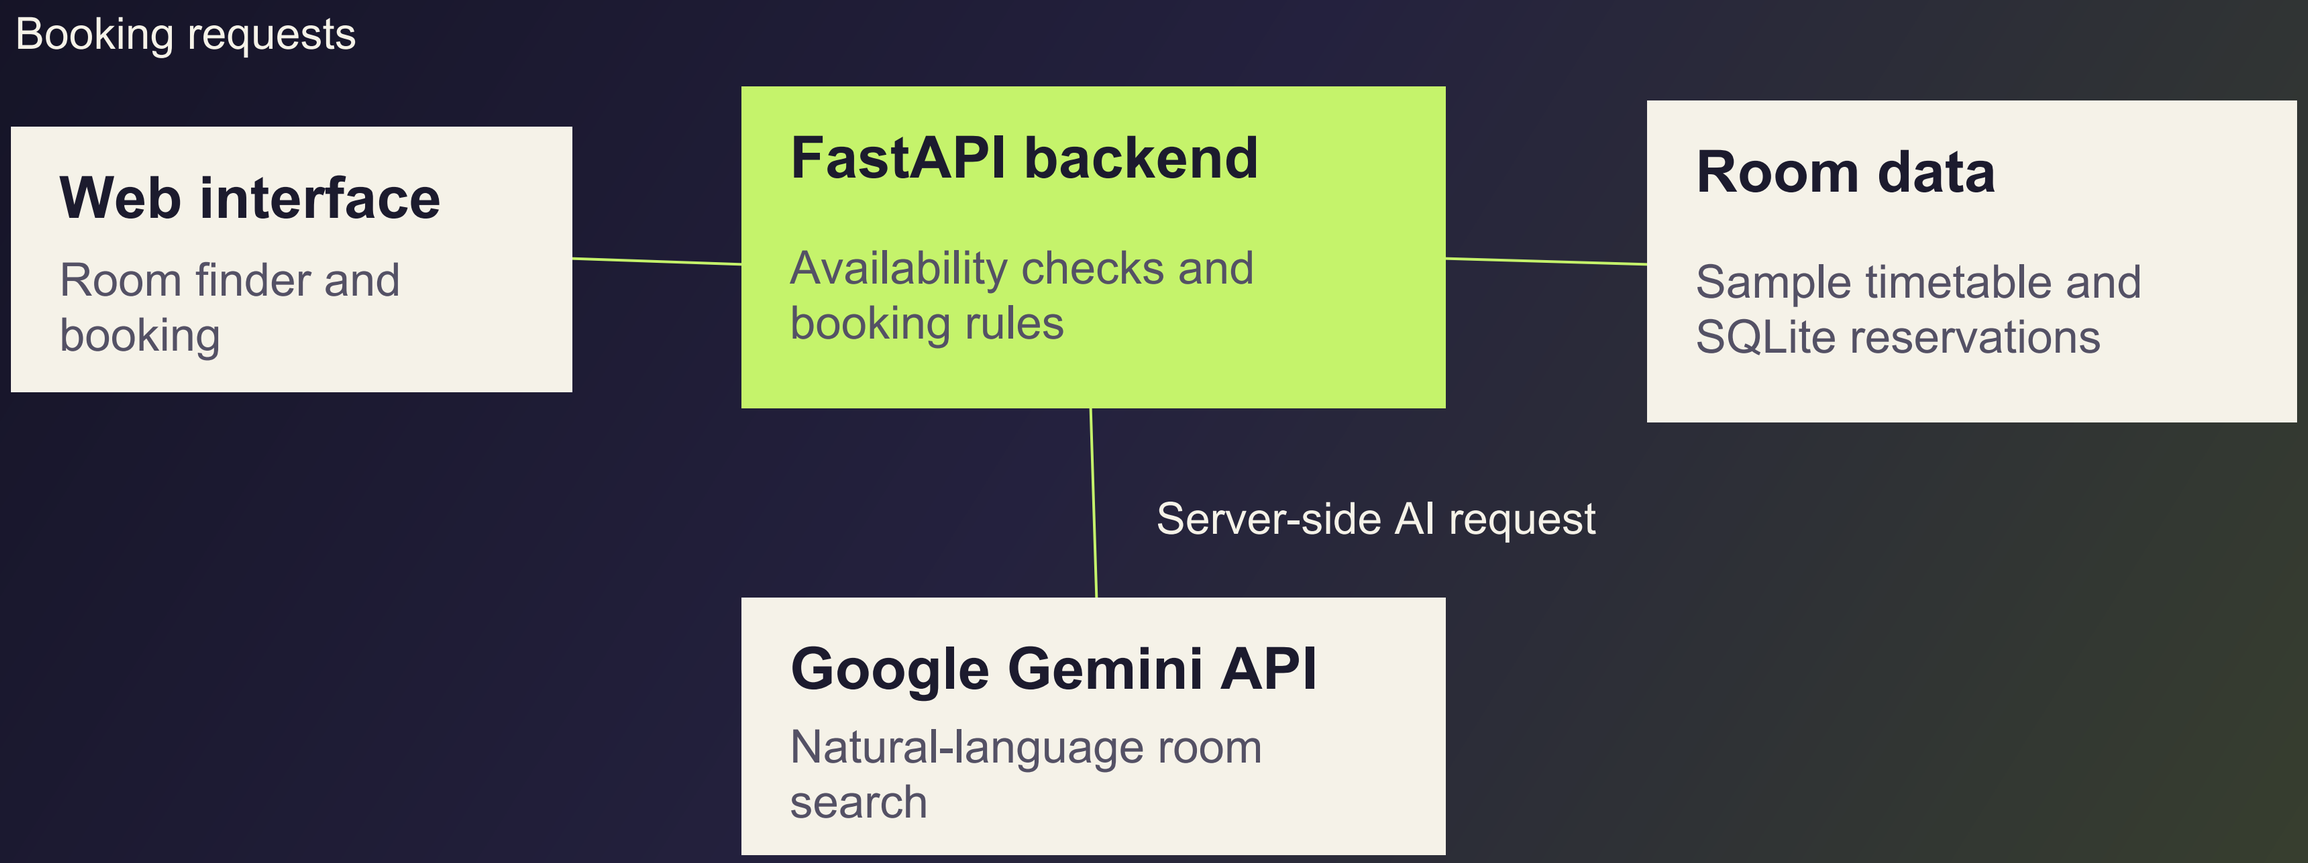

120 sample rooms across Blocks B, D and E

BOOKING FEATURES

Advance booking	One Monday–Friday window in Malaysia time.
Group reservations	Up to 20 people and 1 hour per booking.
Room availability	8 am–6 pm, with class alerts and next-free suggestions.

Each student can hold 2 active bookings per date.

SYSTEM ARCHITECTURE

GOOGLE GEMINI INTEGRATION

“Find a free room for six in Block E at 2 pm.”

Interpret the question

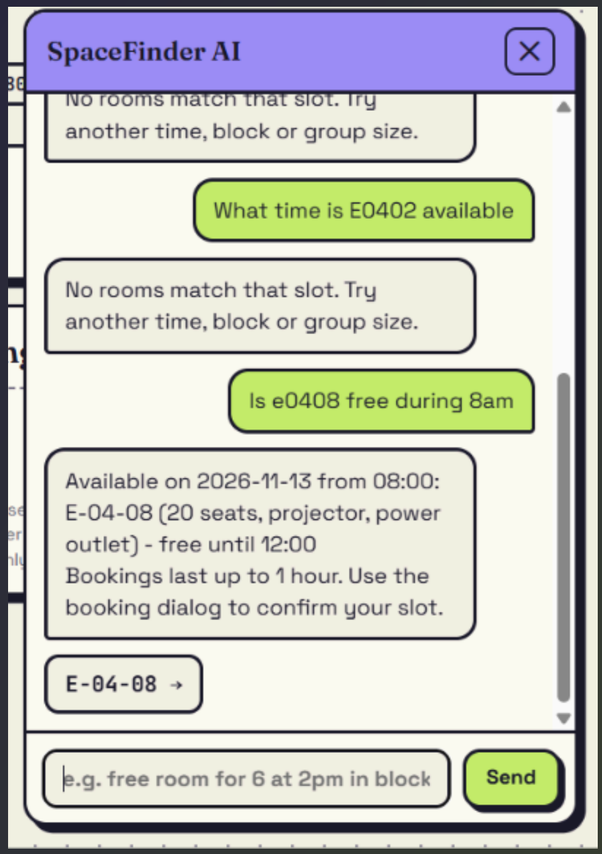

Gemini extracts time, location and group size.

Check availability

SpaceFinder searches its timetable and bookings.

Suggest rooms

Students review a match and confirm in the booking form.
